POWER STORE. PRO 10

10 kWh MODEL

Compact mobile professional battery power

BIG POWER.

SMALL FOOTPRINT.

A mobile 10 kWh battery generator engineered for construction, maintenance, film production, tunnel work and other professional applications where clean, quiet power matters.

10 kWh BATTERY	**8 kVA** RATED OUTPUT
16 kVA PEAK POWER	**230 V AC** SINGLE PHASE

uninterrupted **Power**

zero **Noise**

CO_2 zero **Emissions**

BUILT FOR THE JOB

Twin outlets
Twin covered 63A & 125A outlets for quick and fast connection of 230 V tools and equipment. Distribution board available on request.

Quiet operation
Natural cooling and minimal operating sound make it suitable for all applications.

Movable by design
4 Way fork lift pockets with side mounted lifting handles.

Professional Output
8 kVA rated output with built in inverter and capacity for Solar PV charging.

KEY SPECIFICATION

CAPACITY **10 kWh**	OUTPUT **230 V AC**	RECHARGE TIME **1 HR**
INPUT **60A**	PROTECTION **IP54**	SIZE **1100 mm cube**

CLEANER ENERGY, READY TO WORK

Available from ESS Power Store pre-charged using renewable energy from our solar-powered charging infrastructure

POWER STORE. PRO 20

20 kWh MODEL

Compact mobile professional battery power

BIG POWER.

SMALL FOOTPRINT.

A mobile 20 kWh battery generator engineered for construction, maintenance, film production, tunnel work and other professional applications where clean, quiet power matters.

20 kWh BATTERY	**8 kVA** RATED OUTPUT
16 kVA PEAK POWER	**230 V AC** SINGLE PHASE

uninterrupted **Power**

zero **Noise**

CO_2 zero **Emissions**

BUILT FOR THE JOB

Twin outlets
Twin covered 63A & 125A outlets for quick and fast connection of 230 V tools and equipment. Distribution board available on request.

Quiet operation
Fan cooling and minimal operating sound make it suitable for all applications.

Movable by design
4 Way fork lift pockets with side mounted lifting handles.

Professional Output
8 kVA rated output with built in inverter and capacity for Solar PV charging.

KEY SPECIFICATION

CAPACITY **20 kWh**	OUTPUT **230 V AC**	RECHARGE TIME **2 HR**
INPUT **60A**	PROTECTION **IP54**	SIZE **1100 mm cube**

PC15KT

33 kWh MODEL

Compact mobile professional battery power

BIG POWER.

SMALL FOOTPRINT.

A mobile 33 kWh battery generator engineered for construction, maintenance, film production, tunnel work and other professional applications where clean, quiet power matters.

33 kWh BATTERY	**22.5 kVA** RATED OUTPUT
30 kW PEAK POWER	**415 V AC** THREE PHASE

uninterrupted **Power**

zero **Noise**

CO_2 zero **Emissions**

BUILT FOR THE JOB

Twin outlets
Twin covered 32A outlets for quick and fast connection of tools and equipment. Distribution board available on request.

Quiet operation
Natural cooling and minimal operating sound make it suitable for all applications.

Movable by design
4 Way fork lift pockets with side mounted lifting handles.

Professional Output
22.5 kVA rated output with plug and play generator control.

KEY SPECIFICATION

CAPACITY **33 kWh**	OUTPUT **415 V AC**	RECHARGE TIME **3 HR**
INPUT **22A 3-Phase**	PROTECTION **IP54**	SIZE **1100 mm cube**
